Subject: Draft rationale for Forestry "Roads" issue - CZARA

Teresa and Peter,

Chris put together draft language for addressing the Forestry - Roads issue under CZARA. Chris is going to be out this week but will be back in next week. We would like to be able to present this issue to the managers next week, giving them a "heads-up" on challenging CZARA issues. Please take a close look at Chris's draft. If you have comments or recommended changes, please edit in review mode and distribute your comments to the group.

Thanks.

Alan
